CONTENTS OF VOLUME 53

Number 1, 14 October 1970

Falvey, A. K. and Staehelin, T., Structure and Function of Mammalian Ribosomes. I. Isolation and Characterization of Active Liver Ribosomal Subunits 1

Falvey, A. K. and Staehelin, T., Structure and Function of Mammalian Ribosomes. II. Exchange of Ribosomal Subunits at Various Stages of *in vitro* Polypeptide Synthesis 21

Sheard, B., Yamane, T. and Shulman, R. G., Nuclear Magnetic Resonance Study of Cyanoferrimyoglobin; Identification of Pseudocontact Shifts . 35

Spudich, J. A., Horn, V. and Yanofsky, C., On the Production of Deletions in the Chromosome of *Escherichia coli* 49

Bruner, R. and Cape, R. E., The Expression of Two Classes of Late Genes of Bacteriophage T4 69

Muramatsu, M., Shimada, N. and Higashinakagawa, T., Effect of Cycloheximide on the Nucleolar RNA Synthesis in Rat Liver . . . 91

Hill, W. E., Anderegg, J. W., Van Holde, K. E., Effects of Solvent Environment and Mode of Preparation on the Physical Properties of Ribosomes from *Escherichia coli* 107

Eigen, M. and Pörschke, D., Co-operative Non-enzymic Base Recognition. I. Thermodynamics of the Helix–Coil Transition of Oligoriboadenylic Acids at Acidic pH 123

Shulman, R. G., Wüthrich, K., Yamane, T., Patel, D. J. and Blumberg, W. E., Nuclear Magnetic Resonance Determination of Ligand-induced Conformational Changes in Myoglobin 143

Letter to the Editor—

Mandel, M. and Higa, A., Calcium-dependent Bacteriophage DNA Infection 159

Number 2, 28 October 1970

Greenlee, L. L., Structural Alteration of Intracellular ϕX174 DNA Following Infection of Host Cells in which Protein Synthesis is Inhibited 163

Elliott, A. and Lowy, J., A Model for the Coarse Structure of Paramyosin Filaments 181

Senior, B. W., Kwasniak, J. and Holland, I. B., Colicin E3-directed Changes in Ribosome Function and Polyribosome Metabolism in *Escherichia coli* K12 205

Gulik, A., Inoue, H. and Luzzati, V., Conformation of Single-stranded Polynucleotides: Small-angle X-ray Scattering and Spectroscopic Study of Polyribocytidylic Acid in Water and in Water–Alcohol Solutions . . 221

Ray, D. S., Replication of Bacteriophage M13. IV. Synthesis of M13-specific DNA in the Presence of Chloramphenicol 239

Razin, A., Sedat, J. W. and Sinsheimer, R. L., Structure of the DNA of Bacteriophage ϕX174. VII. Methylation 251

Thang, M. N., Harvey, R. A. and Grunberg-Manago, M., Model for the Elongation of Polynucleotide Chains by Polynucleotide Phosphorylase . 261

Letter to the Editor—

Yamagami, H. and Yamamoto, N., Contribution of the Bacterial Recombination Function to Replication of Bacteriophage P22 . . . 281

Number 3, 14 November 1970

Vapneck, D. and Dean Rupp, W., Asymmetric Segregation of the Complementary Sex-factor DNA Strands during Conjugation in *Escherichia coli* 287

Schubert, D. and Cohn, M., Immunoglobulin Biosynthesis. V. Light Chain Assembly. 305

Knowland, J. and Miller, L., Reduction of Ribosomal RNA Synthesis and Ribosomal RNA Genes in a Mutant of *Xenopus laevis* which Organizes only a Partial Nucleolus. I. Ribosomal RNA Synthesis in Embryos of Different Nucleolar Types 321

Miller, L. and Knowland, J., Reduction of Ribosomal RNA Synthesis and Ribosomal RNA Genes in a Mutant of *Xenopus laevis* which Organizes only a Partial Nucleolus. II. The Number of Ribosomal RNA Genes in Animals of Different Nucleolar Types 329

Sköld, O., Regulation of Early RNA Synthesis in Bacteriophage T4-infected *Escherichia coli* Cells 339

Spadari, S. and Ritossa, F., Clustered Genes for Ribosomal Ribonucleic Acids in *Escherichia coli* 357

Hirota, Y., Mordoh, J. and Jacob, F., On the Process of Cellular Division in *Escherichia coli*. III. Thermosensitive Mutants of *Escherichia coli* altered in the Process of DNA Initiation 369

Konrad, M., Gene Expression in Bacteriophage 2. II. Regulation of RNA Synthesis *in vivo* by the N Protein 389

Riggs, A. D., Bourgeois, S. and Cohn, M., The *lac* Repressor–Operator Interaction. III. Kinetic Studies 401

Hauser, H., Finer, E. G. and Chapman, D., Nuclear Magnetic Resonance Studies of the Polypeptide Alamethicin and its Interaction with Phospholipids . 419

Burd, J. F. and Wells, R. D., Effect of Incubation Conditions on the Nucleotide Sequence of DNA Products of Unprimed DNA Polymerase Reactions . 435

Dickson, R. C., Barnes, S. L. and Eiserling, F. A., Structural Proteins of Bacteriophage T4 461

Romeo, D., Girard, A. and Rotherfield, L., Reconstitution of a Functional Membrane Enzyme System in a Monomolecular Film. I. Formation of a Mixed Monolayer of Lipopolysaccharide and Phospholipid . . . 475

Romeo, D., Hinckley, A. and Rothfield, L., Reconstitution of a Functional Membrane Enzyme System in a Monomolecular Film. II. Formation of a Functional Ternary Film of Lipopolysaccharide, Phospholipid and Transferase Enzyme 491

Mosig, G., A Preferred Origin and Direction of Bacteriophage T4 DNA Replication. I. A Gradient of Allele Frequencies in Crosses between Normal and Small T4 Particles 503

Kaerner, H. C., Sequential Steps in the *in vivo* Assembly of the RNA Bacteriophage fr 515

Chi, J. C. H. and Suyama, Y., Comparative Studies on Mitochondrial and Cytoplasmic Ribosomes of *Tetrahymena pyriformis* 531

Letters to the Editor—

Gamble, J. G. and McCluer, R. H., *In vitro* Studies with Rifampicin on the Stability of Heart Mitochondrial RNA 557

Chamness, G. C. and Willson, C. D., An Unusual *lac* Repressor Mutant . 561

Wakabayashi, K. and Mitsui, T., An X-ray Diffraction Study of Reconstituted Straight *Salmonella* Flagella 567
